

July 22, 2022

Dear Customer,

As you are aware, Cirrus issued an Advanced PCN-2020-141 on December 21, 2020 and the Final PCN-2020-141 on March 22, 2022 regarding the Key Foundry Co. Ltd. (Back End of Line) process change.

Due to this change, new orders for the affected parts will require new part numbers and current uncommitted backlog will need to be converted to the new part numbers.

Cirrus has prepared quotes in advance and once we transfer to the new parts numbers, the original quotes will be expired.

#### **New Orders**

Effective immediately, July 22, 2022, new orders are to be placed using the new part numbers listed below with the exception of CS4392K, CS5464K, CS5467K and CS5550K parts. Orders with those parts will be determined at a later date once current inventory is depleted on those existing parts. At the appropriate time, Cirrus will send out another communication for those four parts.

#### **Transfer of Existing Backlog**

Effective August 1, 2022, our intent is to convert current uncommitted backlog to the new part numbers using the following methods:

**EDI Distributor orders** – cancel and rebook with new PO number is our intent. The cancel and rebook process should ideally happen on the same day at the order level, and advantageous to action as soon as possible.

**Direct and Non-EDI Distributor orders** – Cirrus prefers to update the part number on the existing orders on your behalf, but if needed we can cancel and rebook orders with new PO numbers if this is your requirement. Please ensure you notify us of your decision no later than the 1<sup>st</sup> of August. If you want to cancel and rebook, that process should happen at the same time at the order level.

All transfers of existing backlog to the new parts are to be completed no later than August 30, 2022.

Your local Cirrus sales support team will reach out to you shortly with the detailed information of the existing backlog that needs to be transferred with supporting information.

Cirrus greatly appreciates your patience and support on this matter.

Regards,

Cirrus Logic Sales Team

The transition of the parts in blue will be announced at a later date.

Appendix B - Cirrus Logic New Orderable Part Number(s)					
1	CS3308K-CQZ	30	CS4392K-KZZR	59	CS5460CK-ISZ
