To: Valued Customer

From: Littelfuse Product Management

Subject: Addition of Clip Supply

This is a 90 days PCN.

Due to significant increases in demand for fuse clips, it has become necessary to add additional sources in order to maintain supply and lead-times in accordance with customer requirements.

As such, we have developed additional supply capacity and we will be phasing in the use of components from this additional capacity starting from the 12th January 2016. This will be a running change in production.

In order to aid in tracking, identical parts may be marked with or without the letter "H".

This will only affect the parts listed in the attached spreadsheet.

Please let us know, should you require any support or have any further queries.

Best Regards;
Ben Zheng
